

Discover your Anima, the unique hookah

Unique hookahs for the spiritual dimension
of the contemporary smoking experience.

Story

From the very beginning of Anima, the creators had an ambition to bring to the market an innovative and modern product.

The Anima development team draws upon many years of experience in the development of unique hookahs.

Vít Bechynský (Product Designer) assembled his first hookah at the age of 16 (although it could not be called design at the time, it served its function). In recent years, he has been behind the development of successful products in both domestic and foreign markets. With the ambition to deliver a product for the 21st century, he embarked on the development of a completely new hookah concept with a group of friends and experts in the field. From the very first sketch, he embodied the idea of innovative hookahs and the Anima brand. The whole experience of the products should inspire you to explore your own soul...

Anima brings a completely unique hookah construction to the market. It starts with the curved body, which makes sure the horizon of the water surface isn't in the axis of the hookah. The entire weight of the product is distributed at three static points. The design line is minimalist but, at the same time, both modern and original. Last but not least there is the integrated, animated lighting. All this adds up to a 21st century product.

Worldwide

Our mission is to bring innovative and advanced products to the market, going beyond the limits of possibility and the borders of the country in which they are manufactured. Anima is targeting the world market.

**Be there with us and discover a new dimension
with Anima products.**

Design

Anima's design combines traditional materials and excellent function with innovative functionality and a futuristic look.

The stability of the hookah is ensured by a two-leg aluminum cast. The hand-blown glass vase connects smoothly to the curved porcelain body. The integrated wind guard protects the bowl from wind, while allowing access from the other side.

Integrated light

Atmosphere is essential to the smoking experience. With this in mind, we have designed an integrated light source for our hookahs, powered by easily replaceable AA batteries.

Anima light has many light and colour combinations, to allow you to create your perfect atmosphere.

Construction

Our unique design combines traditional materials with innovative function and elegance. The hookah itself contains several design innovations. The bayonet closing at the neck of the vase has an inner diameter of 10 cm to allow for easy cleaning or inserting large pieces of fruit.

A check valve with high permeability provides comfortable blow of smoke. Complete disassembly of all hookah components helps with easy maintaining and cleaning of the whole hookah. The hookah leans against an elegant metal leg, which comes in two options: for placement on the table or on the floor. Anima can be placed in either of our unique stands, so which hookah configuration you choose is up to you.

Table solution

One Anima, two placement options. For table use, place the cast aluminum stand on the bottom lock of the bayonet, which is part of the neck of the glass vase. This will ensure a firm connection with the hookah's body.

Table placement is perfect for decorating the vase with fruit. Our table solution Anima is ideal for its compact nature and elegance, and is guaranteed to attract attention.

Floor solution

Place your Anima hookah in a giant stand, where the hookah is hung and levitates in space. The hanger is made of solid metal and the hookah slides in and out easily during operation, which will be appreciated by catering staff or in lounges.

Our floor solution is also compatible with the table solution. Alternate freely between these two stands and thus always have your Anima looking completely different.

Watch Anima levitate. A completely unique and remarkable solution that will make your Anima the center of attention.

Technology

Anima Hookahs are designed from highly durable, quality materials.

During the development, we emphasized cooperation with masters from many fields, feeling this was the only way to create a smart, highly functional product with a sense for detail and craftsmanship.

All our materials and components are carefully selected and manufactured by local masters of crafts in the Czech Republic.

Materials

The entire hookah is made with fine materials, with an emphasis on precision and handmade production.

Anima is one of the few hookahs with a cast aluminum component on the market. The combination of the aluminium with handmade porcelain creates a unique synergy in functionality and elegance.

Czech crystal is blown in traditional Czech glassworks with a long history. Thanks to this, we can guarantee the high aesthetic value of Anima vases and the variety in our designs.

Quality

To ensure you get the highest quality of smoking experience, we have spent a great amount of time designing a deeply detail-oriented product.

Masters of their craft participate in the development and production itself, starting with handmade porcelain, hand-blowing glass or using modern materials such as cast aluminum.

Anima Hookahs are produced in the Czech Republic, the heart of the European Union.

Customize

Anima hookah can be created in several designs. There are two options of stands, for placement on the floor and on the table, and also two colour series, Anima WHITE and Anima BLACK. You can choose from pure white porcelain or black matte finish with embossed decor in the Anima design.

Stand out from the crowd. Let's design a unique Anima together according to your brand.

Products

Discover how your Anima can levitate and how it reflects the colour of your soul.

The singularity of Anima lies not only in its unique design, but also in its innovative approach and our search for alternative ways to enrich the hookah experience and take it into the 21st century.

We offer Anima hookahs in two basic colour variants – black and white – and in custom designs. You can also choose a special design stand for any of our hookahs. There are two different versions, a table solution and a floor solution.

Anima WHITE

Hookah in white design consisting of a handmade porcelain body, a vase made of Czech crystal, and a solid stand for placement either on the table or on the floor. With our innovative solution, the hookah is inserted into a solid stand and thus levitates in space. Its modern morphology further enhances the already distinctive visuality of the whole Anima.

Thanks to the integrated light in the heart of the hookah and the levitation of the whole set, the light cone shining on the floor is truly unique. Floor solution is an ideal version if you do not have space on the table, have low seating, or if you want to have a hookah placed stably on the floor.

Anima BLACK CRYSTAL

Fall for the elegance and attractive mystery of a hookah in a black matte design. Consisting of a hand-made porcelain body, a vase made of Czech crystal, and a solid stand for placement on a table.

The integrated light shines from top to bottom through the optically modeled folds of the vase, creating a unique ambient atmosphere. Immerse yourself in a mysterious mood with Anima Black.

Thanks to the integrated light in the heart of the hookah pipe and the levitation of the whole set, the light cone shining on the floor is truly unique. Floor solution is an ideal version if you do not have space on the table, have low seating, or if you want to have a hookah placed stably on the floor.

Anima ETERNAL BLACK

The captivating combination of a dark black matte finish of the high-gloss, handmade porcelain, and the sophisticated ripple of the crystal vase in dark black will transport you to the magical world of Anima.

This elegant and minimalist design has a sensual elegance and simplicity. With the integrated light in the heart of the hookah and shining through the black glass, the light glow is noticeably more attractive, and the lighting effects in the light animation more sophisticated.

We have designed this model in two versions, one as a table solution and one as a floor solution. Discover our Floor solution - the ideal solution for anywhere without table space or with low seating, which will keep your hookah stable on the floor.

Anima PLATINUM

A very stylish combination of platinum body and pure crystal vase. The body of the hookah is made of hand-cast porcelain and finished with an innovative vacuum chamber application of titanium to a platinum colour. The surface finish is hard, high gloss, and very modern-looking.

We have designed this model in two versions, one as a table solution and one as a floor solution. Discover our Floor solution - the ideal solution for anywhere without table space or with low seating, which will keep your hookah stable on the floor.

Anima BLUE

Magically blue, that's exactly what Anima BLUE is. If you look closer, you can see the magical transitions from blue to rainbow colours. Anima BLUE is never just blue. It's different, it's inspiring and it's never boring.

The body of Anima BLUE is made of hand-cast porcelain and finished with an innovative vacuum chamber application of titanium to a platinum colour. The surface finish is hard, high gloss, and very modern-looking.

We have designed this model in two versions, one as a table solution and one as a floor solution. Discover our Floor solution - the ideal solution for anywhere without table space or with low seating, which will keep your hookah stable on the floor.

Anima COPPER

Discover Anima COPPER, made in a noble metallic reddish colour used by man since prehistoric times. A hookah that is both traditional and modern at the same time.

We have designed this model in two versions, one as a table solution and one as a floor solution. Discover our Floor solution - the ideal solution for anywhere without table space or with low seating, which will keep your hookah stable on the floor.

Anima MAGIC

If you are looking for a truly extravagant combination, we have designed Anima MAGIC just for you. Always different, always changing its colour and always magical. Blue, purple, pink, gold, platinum and that's Anima MAGIC.

We have designed this model in two versions, one as a table solution and one as a floor solution. Discover our Floor solution - the ideal solution for anywhere without table space or with low seating, which will keep your hookah stable on the floor.
